#### Rationale for Raise in Management Fee & Front End Load:

- Enhanced Service and Expertise: With the rising competition within the Industry, Service and Customer Satisfaction has become an important tool. In order to compete, AM or carry out capital expenditures such as employing talented staff etc. Increasing the management fee can provide Alfalah Investment with additional resources to attract and highly skilled professionals. This, in turn, can lead to improved investment strategies, research capabilities, and overall fund performance.
- Rising Costs: As you are aware that managing Investment funds involves various operational and administrative expenses. These costs may include research and convisis, compliance, technology infrastructure, regulatory requirements, and legal obligations. Rising cost of doing business has hurt most of the business.

- Investment in Technology and Innovation: The financial industry is evolving rapidly, with advancements in technology playing a crucial role. Increasing the management fee will enable Alfalah Investment to invest in innovative technologies, such as data analytics tools, ERP system which is already in deployment, and other technical services. We anticipate that these investments can lead to improve the overall efficiency and effectiveness of AMC and potentially generate better returns for investors.
- Sales Support and Training: We understand that with the rise in FEL, sales employees will receive higher compensation for their efforts in promoting and selling funds. This increased compensation can motivate them to provide better sales support, cultivate stronger client relationships, and engage in ongoing training to enhance their knowledge and sales skills. It aligns their interests with the company's objectives, encouraging them to actively promote the funds and generate more sales.

Conclusion: We understand that all the changes suggested are within the Regulatory limits, and our concern of rising inflation are also felt by Honorable SECP due to which in its recent NBFC amendment SECP Fee revision is also carried out.
