### Compliance Statement

Alfalah Investments claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Alfalah Investments has not been independently verified.

### Firm Definition

Alfalah Investments was incorporated on Oct 18, 2004 as an unlisted company and is licensed by Securities and Exchange Commission of Pakistan (SECP) to undertake asset management, investment advisory and pension fund management services. The definition of Firm at Alfalah Investments encompasses the following:

- All Funds under Management (including investment plans)
- All Non-Fee Paying and Fee Paying and Discretionary and Non-Discretionary Portfolios.

### Policies

Policies for valuing Portfolios, calculating performance, and preparing compliant presentations are available upon request.

### Composite Description

Aggressive Fixed Income Composite will pursue maximum total return by investing in various income-producing securities. Total return is expected to arrive from a combination of income and capital appreciation. No Minimum Instrument and Entity ratings shall apply for this composite. The composite currently comprises of Alfalah GHP Income Multiplier Fund. This composite was created on January 07, 2020.

### Benchmark

The Benchmark of the Composite is 12 Months KIBOR. The Fund's performance will be compared to its benchmark after deducting from the return all expenses which are charged to the Fund as per the Regulations.

### List of Composites

A list of all composite descriptions is available upon request.

### Significant Event

In August 2021, provisioning against Sindh Workers' Welfare Fund has been reversed on the clarification received by Sindh Revenue Board vide letter No. SRB/TP/70/2013/8772 dated August 12, 2021 addressed to Mutual Funds Association of Pakistan.

### Fees

Returns are presented net of all expenses (including custodial expenses, SECP fee, Listing fee) in addition to the Management Fee and Trading Expenses. (Please refer to Schedule)

### Fee Schedule

Management fee of individual portfolios within the Equity Composite are given below:

- **Alfalah GHP Income Multiplier Fund**  
0.5% p.a.

The minimum portfolio size of Collective Investment Schemes (CIS) for inclusion in the composite is Rs 100 Million per Fund, which is also a regulatory requirement for starting and managing a Fund. The definition of CIS does not include Allocation Plans. For Allocation plans, minimum portfolio size is Rs 10 Million.

The minimum portfolio size for separately managed account (SMA) inclusion in the composite is Rs 3 Million per Fund, which is also a regulatory requirement for managing SMAs.

### Currency

The currency used to calculate all the returns is Pakistani Rupee (PKR).

### Ex Post Standard Deviation

The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months

### Internal Dispersion

Internal dispersion is calculated using the equal-weighted standard deviation of net returns of those portfolios that were included in the composite for the entire period.

### Returns

The portfolio returns for the period have been calculated using a time-weighted, monthly, geometrically linked rate of return formula to compute percentage returns. Each portfolio's monthly rate of return is the monthly percentage change in the market value, including earned interest and dividends, after allowing for the effects of cash flows. All returns are net-of-fees calculated after the deduction of actual investment management fees and trading expenses.

The definition of Firm at Alfalah Investments encompasses the following:

- All Funds under Management (including investment plans)
- All Non-Fee Paying and Fee Paying and Discretionary and Non-Discretionary Portfolios.

### Policies

Policies for valuing Portfolios, calculating performance, and preparing compliant presentations are available upon request.

### Composite Description

The investment objective of the Capital Preserved Composite is to earn potentially high absolute returns through dynamic asset allocation between Equity and Fixed Income Mutual funds while providing capital preservation of the Initial Investment Value, at completion of the duration of the fund. The portfolios in the composite aim to preserve the principal amount through the use of the Constant Proportion Portfolio Insurance (“CPPI”) Model, which is widely recognized internationally for its credibility. The composite currently comprises of Alfalah GHP Capital Preservation Fund -2. This composite was created on January 07, 2020 and was later discontinued on April 30, 2020.

### Benchmark

The Benchmark of the Composite is weighted average daily return of KSE-100 Index and 3 Months Deposit Rate of a Double A or above rated Bank as selected by MUFAP and 6 months PKRV Rates based on the Fund’s actual Proportion invested in the Investment Segment and Capital Protection Segment calculated on monthly basis. The Fund’s performance will be compared to its benchmark after deducting from the return all expenses which are charged to the Fund as per the Regulations.

### List of Composites

A list of all composite descriptions is available upon request.

### Significant Event

In August 2021, provisioning against Sindh Workers’ Welfare Fund has been reversed on the clarification received by Sindh Revenue Board vide letter No. SRB/TP/70/2013/8772 dated August 12, 2021 addressed to Mutual Funds Association of Pakistan.

### Currency

The currency used to calculate all the returns is Pakistani Rupee (PKR).

### Ex Post Standard Deviation

The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 months

### Internal Dispersion

Internal dispersion is calculated using the equal-weighted standard deviation of net returns of those portfolios that were included in the composite for the entire period.

### Returns

The portfolio returns for the period have been calculated using a time-weighted, monthly, geometrically linked rate of return formula to compute percentage returns. Each portfolio's monthly rate of return is the monthly percentage change in the market value, including earned interest and dividends, after allowing for the effects of cash flows. All returns are net-of-fees calculated after the deduction of actual investment management fees and trading expenses.

## Key Assumptions for Portfolio valuation

Following are key assumptions are used in Portfolio valuation:

### Financial instruments

All the financial assets and financial liabilities are recognized at the time when the Portfolio becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the contractual rights to receive cash flows related to the asset expire. Financial liabilities are derecognized when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled, or expires. Any gain or loss on derecognizing of the financial assets and financial liabilities is taken to the income statement in the period in which it arises.

Profit on bank deposits is recorded on accrual basis.

### Revenue recognition

Gains / (losses) arising on sale of investments are accounted for in the period in which they arise. Dividend income is recognized when the right to receive the dividend is established. Income on reverse repurchase, certificates of investment, placements, government securities and investments in debt securities are recognized at rate of return implicit in the instrument/ arrangement on a time proportionate basis.

### Subjective Unobservable Inputs

ALFALAH INVESTMENTS uses subjective unobservable inputs for valuing some of its debt instruments i.e., Sukuks and Term Finance Certificates. The criteria used for valuation is in accordance with the Guidelines issued by Regulator through Circular 1 of 2009 (as amended from time to time) and unobservable inputs are disclosed through "Provisioning Policy" on the website of the company. The Provisioning Policy will also be made available to clients upon request.

### Proprietary Assets in the Composite

The Composite also contains investments of ALFALAH INVESTMENTS and its management.

### Liability for Income Tax

Under the income tax law in Pakistan, the Fund is regarded as a public company for tax purposes. The income of the Fund is taxable, if 90% distribution is not made among the unit holders as the case may be. The tax is chargeable at the rate applicable to a public company, which is presently as under:

(a) Dividend income is taxable at the applicable tax rate as provided in Income Tax Ordinance, 2001 for public companies on gross income basis.

Capital gains arising on sale of securities, listed on any stock exchange in Pakistan at applicable tax rates in accordance with the Income Tax Ordinance, 2001; Return from all other sources/instruments are taxable at the rate applicable to a public company.

### Liability for Income Tax, if ninety per cent (90%) of the Fund's income is paid as dividend

Notwithstanding the tax rates and withholding tax the income of the Fund will be exempt from tax, if not less than ninety per cent (90%) of the income for the year is distributed amongst the Unit Holders as dividend. This includes only cash dividend as consequent to amendments in Income Tax Ordinance, 2001 through Finance Act, 2014, for the purpose of determining distribution of at least 90% of accounting income, the income distributed through bonus shares, units or certificates as the case may be, shall not be taken into account. The ninety per cent (90%) of the income shall be calculated after excluding capital gains and as reduced by such expenses as are chargeable to the Fund under the Regulations.

### Withholding Tax

Under the provisions of Clause 47(B) of Part 4 of the Second Schedule to the Income Tax Ordinance, 2001, the Fund's income namely, dividend, profit on government securities, return on deposits/certificates of investment with banks/financial institutions, profits from money market transactions, profit from Profit or Loss sharing accounts with Banks of the Fund will not be subject to any withholding tax.

Taxation of Unit Holders and Liability to Zakat

#### (a) Withholding Tax:

Unless exempted from such taxation or at a reduced rate under any law or Avoidance of Double Taxation Agreement, cash dividend paid to Unit holders of the Fund will be subject to withholding tax as per the prevailing tax law.

In terms of the provisions of the Income Tax Ordinance, 2001, the withholding tax shall be deemed to be full and final liability in respect of such distribution.

#### (b) Capital Gains:

Capital Gains arising on disposition of Units of the Fund subject to withholding Capital Gains Tax (CGT) at the applicable rates given in the Income Tax Ordinance, 2001 (ITO). There shall be no CGT, if holding period is more than 48 months (4 years). As per section 37(A) of the Income Tax Ordinance, 2001, Capital gains shall be treated as a separate block of income and losses under this head can be adjusted by the unit holder from the capital gains in the same tax year. Any unadjusted loss under this head is not allowed to be carried forward to the subsequent tax years.
